WASTEWATER TREATMENT PLANTS

[More Information](#)

Al Gabal Asfar, Egypt

Extension of a municipal
wastewater treatment plant -
Capacity: 2,800,000 EW

[More Information](#)

Sarajevo, Bosnia and Herzegovina

Municipal sewer system –
Capacity: 600,000 EW

[More Information](#)

Nathdwara, India

Industrial Wastewater treatment
Plant –
Capacity: 80 km Kanalisation

[More Information](#)

Ford, India

Industrial Wastewater treatment
Plant –
Capacity: WTP 4.500 m³/d, WWTP
8.000 m³/d

[More Information](#)

Adiyaman, Turkey

Municipal sewer system –
Capacity: Phase 1: 185.119 EW /
Phase2: 252.190 EW
Municipal sewer system

[More Information](#)

Fraiha, Iraq Abu Dhabi, VAE

Extension of an existing pumping
station

[More Information](#)

[More Information](#)

Weilerbach, Germany

Municipal sewer system –
Capacity 24.000 EW

[More Information](#)

Sinaia and Breaza, Romania	Renewal and extension of a municipal wastewater treatment plant and water treatment plants in the district – Capacity: 70.000 EW	More Information
Campina and Ploeni, Romania	Municipal sewer system – Capacity: 86.000 EW Municipal sewer system – Capacity: 280.000 EW	More Information
Galati, Romania	Municipal sewer system – Capacity: 115.400 EW	More Information
Roman, Romania	Municipal sewer system – Capacity: 115.400 EW	More Information
Reghin, Romania	Municipal sewer system – Capacity: 55.000 EW Main contract for Passavant Energy & Environment GmbH	More Information
Kerbala, Iraq	of anaerobic sludge digestion incl. gas injection system - Capacity: 700.000 EW	More Information
Wadi Shallalah, Jordan	Municipal sewer system – Capacity: 164.000 EW	More Information
STEP, Abu Dhabi	Strategic Tunnel Extension contract - Capacity: 2,108,160 m ³ /d	More Information
Poarta Alba, Romania	Municipal sewer system – Capacity: 10.000 EW / 9,985 m ³ /d	More Information
Nablus, Palestine	Municipal sewer system – Capacity: 150.000 EW Municipal sewer system – Capacity: 25.000 EW	More Information
Zellinger Becken, Germany	Municipal sewer system – Capacity 150.000 EW	More Information
Bouira, Algeria	Municipal sewer system – Capacity 150.000 EW	More Information
CSC1, China Steel, Taiwan	Chemical-mechanical treatment of industrial wastewater, CSC1	More Information
CSC2, China Steel, Taiwan	Chemical-mechanical treatment of industrial wastewater with rainwater, CSC2	More Information
CSC6, China Steel, Taiwan	Decarbonisation, CSC6	More Information
CSC7, China Steel, Taiwan	Decarbonisation, CSC7	More Information
CSC8, China Steel, Taiwan	Chemical-mechanical treatment of process wastewater, CSC8	More Information
CSC9, China Steel, Taiwan	Chemical-mechanical treatment of process wastewater, CSC9	More Information
Tianjin Soda Plant, China	Two-stage chemical-mechanical treatment of process wastewater, Tianjin Soda Plant, China	More Information

SLUDGE TREATMENT PLANTS

[More Information](#)

Al Gabal Asfar, Egypt

Rehabilitation and Extension of a municipal sewage treatment plant-
Capacity: 8,000,000 EW

[More Information](#)

Sarajevo, Bosnia and Herzegovina

Municipal wastewater treatment plant incl. Sludge treatment –
Capacity: 600,000 EW

[More Information](#)

Kassel, Germany

Municipal wastewater treatment plant incl. Sludge treatment –
Capacity: 335.000 EW

[More Information](#)

Zellinger Becken, Germany

Municipal wastewater treatment plant incl. Sludge treatment
Zellinger Becken, **Germany** –
Capacity: 25.000 EW

[More Information](#)

Kerbala, Iraq

Anaerobic Sludge digestion plant incl. Gas injection –
Capacity: 700.000 EW

[More Information](#)

Adiyaman, Turkey

Municipal wastewater treatment –
Capacity: Phase 1: 185.119 EW / Phase2: 252.190 EW

[More Information](#)

Campina and Ploeni, Romania

Municipal wastewater treatment inkl.
incl. Sludge treatment– Capacity: 86.000 EW

[More Information](#)

Reghin, Romania

Municipal wastewater treatment inkl.
incl. Sludge treatment– Capacity: 55.000 EW

[More Information](#)

Nablus, Palästina

Municipal wastewater treatment inkl.
incl. Sludge treatment– Capacity: 150.000 EW

[More Information](#)

Poarta Alba, Romania

Municipal wastewater treatment inkl.
incl. Sludge treatment– Capacity: 54.000 EW

[More Information](#)

Roman, Romania	Municipal wastewater treatment – Capacity: 115.400 EW	More Information
Sinaia and Breaza, Romania	Municipal wastewater treatment – Capacity: 70.000 EW	More Information
Shanghai Bailonggang, China	Sludge treatment plant – Capacity: 4.333.333 EW Sludge treatment plant – Capacity: 2.500.000 EW	More Information
Gut Großlappen, Germany Fujairah, V.A.E.	Sludge treatment plant – Capacity: 91.400 EW	More Information
Budapest North, Hungary	Sludge treatment plant – Capacity: 1.000.000 EW	More Information
Szeged, Hungary	Sludge treatment plant – Capacity: 230.000 EW	More Information
Shijiazhuang, China	Municipal wastewater treatment incl. sludge treatment – Capacity: 2.100.000 EW	More Information
Katowice, Poland	Municipal wastewater treatment incl. sludge treatment – Capacity: 180.000 EW	

WATER TREATMENT

[More Information](#)

Thu Duc III, Vietnam	Drinking water treatment plant incl. Raw water and drinking water pumping station and sludge treatment	More Information
Sibiu, Romania	Drinking water treatment plant incl. 2 pumping stations and reservoirs	More Information
Moorburg, Germany	Cooling tower make-up water treatment plant (KZA) coal-fired power plant Kohlekraftwerk Hamburg Moorburg	

[More Information](#)

Botosani (Bucecea & Catamarasti), Romania

Two water works in the district of Botosani (renewal and extension)

[More Information](#)

Wacker Burghausen, Germany

Water works District (Wacker Burghausen) with sand trap, Turbo LME, sand filters

Waterworks Hadera, lime saturator for remineralization of desalinated

[More Information](#)

AT Lime Saturator, Florida/USA

seawater

Waterworks District (Zekivka) with lime saturator mineralization

[More Information](#)

Zelivka (Prague), Czech Republic

jammed freshwater

Waterworks District (Heinrichsthal) with membrane and ultrafiltration

[More Information](#)

Heinrichstal, Germany

[More Information](#)

Al Hunayy, Riyadh, Saudi-Arabia

Waterworks District (Al Hunayy) with Design & Delivery

[More Information](#)

Wear Valley, England/UK

Waterworks District (Wear Valley) with Turbo-LME

[More Information](#)

Sipplinger Berg, Germany

Waterworks District (Sipplinger Mountain) Microscreening, ozonation, sand filters

Waterworks District (Horsley) with Turbo-LME, sand filters

[More Information](#)

Gut Großlappen, Germany

Waterworks District (Horsley) with Turbo-LME, sand filters

[More Information](#)

Horsley, England/UK

3 Waterworks District (Debreczin) with sand filter

[More Information](#)

Debreczin, Hungary

[More Information](#)

Sagunto, Spain

Waterworks District (Saguto) with Turbo-LME, sand filters

[More Information](#)

Viet Tri, Vietnam

Waterworks District (Viet Tri) Vorreinigung, Sandfiltration

Waterworks District (Erzgebirge)

[More Information](#)

Klingenberg, Germany

Kalkwasserproduktion for deacidification and hardening of drinking water

Carlsfeld, Germany	Waterworks District (Erzgebirge) Kalkwasserproduktion zur Entsäuerung und Aufhärtung von Trinkwasser	More Information
Anshun, China	Waterworks District (Anshun) with LME, sand filters	More Information
Lichtenberg, Germany	Waterworks District (Erzgebirge) with surface water	More Information
Podoli (Prague), Czech Republic	Waterworks District (Podoli) Kalkwasserproduktion for deacidification and hardening of drinking water	More Information
Deionat Leuna, Germany	Deionatproduktion for industrial park Leuna, Saxony-Anhalt	More Information
Muldenberg, Germany	Waterworks District (Erzgebirge) Kalkwasserproduktion for deacidification and hardening of drinking water	More Information
Stollberg, Germany	Waterworks District (Erzgebirge)Kalkwasserproduktion for deacidification and hardening of drinking water	More Information
Altenberg, Germany	Waterworks District (Erzgebirge) Kalkwasserproduktion for deacidification and hardening of drinking water	More Information
Dresden-Coschütz, Germany	Waterworks (Dresden) with lime water production	More Information
Egau, Germany	Waterworks District (Ulm/ Donau) drinking water from groundwater	More Information
Herbringhausen, Germany	Waterworks District (Hernringhausen) Kalkwasserproduktion for deacidification and hardening of drinking water	More Information
Erlenhagen, Germany	Waterworks District (Erlenhagen)with Turbo-LME	More Information
Mühlberg, Germany	Waterworks District (Mühlberg) LME	More Information
Auchel Reichshof-Brüchermühle, Germany	Waterworks District (Nordrhein Westfalen) with Turbo LME	More Information
Jouè-les-Tours, Frankreich	Waterworks District (Jouè-les- Tours)	More Information
Obermaubach, Germany	Waterworks District (Nordrhein- Westfalen)	More Information
	Waterworks District (Hessisches	More Information

Biebesheim, Germany	Ried) Waterworks District (Thüringer Wald)	More Information
Bad Blankenburg, Germany	Waterworks District (Donau Ried),	More Information
Langenau, Germany		

SOLID WASTE TREATMENT PLANTS

[More Information](#)

Saida, Lebanon	Solid waste treatment plant , Saida, Libanon - Capacity: 99.000 T/a	
	Solid waste treatment plant, Zgorzelec, Polen - Capacity: 5.000 T/a	More Information
Zgorzelec, Poland	Solid waste treatment plant, Münster, Deutschland - Capacity: 11.000 T/a	More Information
Münster, Germany	Solid waste treatment plant, Münster, Deutschland - Capacity: 10.000 T/a	More Information
Kaufbeuren, Germany	Solid waste treatment plant, Rotweil, Deutschland - Capacity: 10.000 T/a	More Information
Rottweil, Germany
